

Dear Hiring Manager,

I am writing to express my strong interest in the Home Tutor position at your esteemed organization. As an aspiring biomedical engineer with a passion for education and helping others, I believe I am an excellent fit for this role.

I recently graduated in August 2024 from Hawassa University with a Bachelor's degree in Biomedical Engineering, where I maintained a GPA of 3.36. During my time at the university, I completed a 3-month impactful internship at Adare General Hospital, gaining hands-on experience in medical equipment maintenance and clinical workflows.

In addition to my academic achievements, I have honed my technical skills through freelance work as a Motion Graphics Designer. I am proficient in using software such as Adobe After Effects, Illustrator, and Premiere Pro to create dynamic and engaging content. My ability to blend creativity with technical expertise has allowed me to deliver visually compelling solutions, which I believe would translate well to the tutoring environment.

As a home tutor, I am eager to share my knowledge and passion for learning with students. I have a strong foundation in subjects like Biomedical Engineering, as well as proficiency in Amharic, English, and Afan Oromo. I am confident in my ability to tailor my teaching approach to each student's needs and learning style, ensuring they achieve their academic goals.

Thank you for considering my application. I am confident that my qualifications, enthusiasm, and commitment to student success make me an ideal candidate for this position, and I look forward to discussing my suitability further.

Sincerely,

Michael Tariku
